Helpful Service Reminders, Energy Saving Tips, and Propane Safety Information for Our Valued Customers

The Times, They are a Changing... and Changing Some More!

To our family of customers,

To say the last two years have been challenging would be quite the understatement. As we roll into 2022, the hits just keep coming.

The only certainty we have in life is change, and the changes seem to be coming more rapidly with each passing day. Yet, these changes also bring a clarity to our lives. It is in challenging times that we find out what is truly important in our lives and what we truly value.

Our commitment to our families is our highest priority and our deepest commitment. You as a customer are a part of our Donahue Gas family. We truly value you as a customer and we are committed to assure that your needs are met and you are treated as an individual and not merely a number. When you call our office you are speaking directly to us and not some far away call center. We live in your community and we are a part of your community. Give us a call anytime and let us know how we can help you further.

Thank you for being a part of our family.

Sincerely,

Brian Donahue & Family

**“WILL CALL”
customers,
look inside!**

Gas Check Safety

In a continuing effort to improve safety on all our customer installations, we're working toward our goal to perform a gas check on all Donahue Gas systems. This is at **no cost to you** and will be done at a time that is convenient, and when you are home. A gas check is conducted to ensure the safety of our tank and regulators as well as the safety and security of your gas lines.

So, if our service tech calls to schedule a gas check, know it is part of our continual initiative to improve safety for the Donahue Gas Family.

We're here for your propane emergency needs 24 hours a day, every day of the year!

If you're a
"WILL CALL"
customer, read this
(You could win
100 gallons of free gas)

To serve your account in a more efficient and cost-effective way, we would like to encourage you to switch to a **"Keep Full"** budget. So, all **"will call"** customers who make the switch between **June 1, 2022 and July 30, 2022** will be entered into a drawing for

**100 gallons
OF FREE PROPANE.**

We will draw 3 winners on
August 30.

If you have questions about the benefits of **Keep Full** budget, call our office today. We'll be glad to talk with you about the benefits of switching.

Is the Budget Pay Plan right for you?

With the continuous change in our economy these days, it can be hard to tangle with finances. Our easy and convenient Budget Pay Plan may be a perfect solution for your family's propane budget. Here's why:

- **Your annual fuel costs** are spread out into **simple, easy monthly payments.**
- Your payments are based on **your actual propane usage** to keep them as low and accurate as possible. We are always happy to work with you to make sure the payments are correct for your account needs.
- **You always know** exactly how much your propane payment will be and when it will be due. For even greater convenience, choose automatic payments by credit or debit card.
- Our Budget Pay Plan helps you avoid high price spikes with a **cap on the amount you can pay** for your propane. That means if market rates rise, as they often do in winter, your price can't exceed your cap rate. Plus, if rates fall, we pass on the lower rate to you!
- Unlike other companies that charge extra for the convenience of monthly billing, enrollment in the Budget Pay Plan is **free.**

Give us a call to enroll or learn how low your payments can be!

KEEP FULL

Save time and worry less!

With our Keep Full service, you benefit with:

- ▶ **Dependable propane supply** — We schedule your deliveries based on your usage needs. That means you won't have to keep checking your fuel gauge or call every time you need propane — we take care of everything!
- ▶ **No worry about running out** or the expense of a runout, which can include a leak test fee, a rush delivery fee, and sometimes equipment repair fees, too. We make sure you always have the propane you need.

*We highly recommend all our customers
choose this worry-free delivery option!*

Help a Friend Become a New Customer and We'll Thank You with a

\$100 Credit!

Tell your friend the benefits of working with a family-owned propane company that delivers decades of experience, delivery and pricing options, and uncompromised safety. Then, give us their contact information however is easiest for you:

Mail: Enclose with your next payment

Phone: Just give us call

Email: Send to brian@donahuegas.com

Once your referral receives their first propane fill, you'll receive a **\$100 credit** on your account!

THE PATH TO ZERO

The Environmental Benefits of Propane

Caring for the environment is everyone's responsibility. By choosing propane, one of the cleanest energy sources available today, you're making a change for the better. Here are some environmental facts about propane you may not know.

- Because it vaporizes when exposed to air, propane does not harm soil and has negligible effects on the ozone. Similarly, propane poses no hazard to drinking water or marine ecosystems.
- Propane is not mined like battery materials or extracted like oil. It is primarily manufactured from natural gas as a by-product of methane purification.
- Propane's low carbon intensity is why it is an approved clean alternative fuel under the Clean Air Act of 1990.
- The Energy Star program gives propane a source site ratio of 1.01, compared to 3.03 for electricity from the grid. This means it takes 3.03 units of electricity to produce and deliver one unit of energy to a home, compared to only 1.01 for propane.
- Propane prevents deforestation by replacing solid fuels such as wood and coal.
- Propane is electric grid free making it a valuable partner energy source at solar and wind generation facilities when the sun doesn't shine or the wind doesn't blow.
- A typical propane tank has a useful lifespan of between 30 and 40 years and is 100% recyclable after service. The brass fittings used in the tank are made from a high percentage of recycled brass and are 100% recyclable.

IF YOU SUSPECT A PROPANE LEAK

1. **Extinguish any flames and cigarettes immediately.**
2. **Don't touch any light switches,** flashlights, appliances, or use any type of phone, including your cell phone. Flames or sparks can trigger an explosion or fire.
3. **Evacuate your home immediately** and move everyone to a safe, distant location.
4. **Shut off the propane supply at the tank** if you feel it's safe to do so.
5. **Call safety professionals.** As soon as you are at a safe location, call Donahue Gas/Dri-gas, 911, or your fire department immediately.
6. **Stay away** until the leak has been found, repaired, and/or deemed safe by our professionals.

Easy Grilled Pork Chops

INGREDIENTS

1/4 cup honey
2 tablespoons vegetable oil
1 tablespoon apple cider vinegar
1 teaspoon ground cumin
1/2 teaspoon red pepper flakes
Eight 1/2-inch bone-in pork chops (about 3 ounces each)
Salt and freshly ground black pepper

INSTRUCTIONS

In a small bowl, whisk together the honey, oil, vinegar, cumin and red pepper flakes to make the marinade.

Sprinkle both sides of the pork chops with salt and pepper and place in a re-sealable plastic bag with the marinade. Let rest on the counter for 1 hour.

Heat a grill over medium heat. Remove the pork chops from the bag and lightly sprinkle with salt and pepper. Place on the grill and cook until the pork chop releases from the grill, about 4 minutes. Flip and cook on the other side for another 3 minutes.

Indiana residents: Save with

2 Rebate Options

towards new propane equipment!

If you're in the market for a new propane water heater or furnace, be sure to apply for an **Indiana Propane Gas Association 2022 Propane Appliance Safe Installation Rebate**.

\$200
rebate
propane
water heater

\$300
rebate
propane
furnace

Rebates are available for appliances purchased after March 1, 2022 only. *Qualifying applicants can receive up to \$500!*

We help you every step of the way. We provide the application,

perform the safety-checked installation, and assist with the process to help make getting your rebate(s) as easy as possible.

Funds are limited and dispersed on a first-come first-served basis — so the sooner you apply, the better your chances of getting a rebate.

Don't delay, call us today!
